### 2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

The institution adopts student centric methods which are discussed as follows -

- Learning in the college is made more student-centric.
- Teachers of the college follow mainly blended learning method in their daily teaching as per the syllabus of their subjects framed by the University.
- Through this method, the Teachers first of all summarize the topics of the chapters give the details of these topics and thereupon send link to their WhatsApp group as regards their PPT / Presentation.
- At the end of the period, they evaluate orally what the students have learnt through their teaching on that day. The next period of Teachers start with the question what we have learnt in the previous period.
- For independent learning, the college provides good educational atmosphere along with separate reading rooms for male and female students.
- The students are also provided Internet facility in the library, all laboratories, computer lab, commerce lab, language lab and in the campus with Wi-Fi facility.
- The students are encouraged to view various Audio / Video clips as regards the chapters on their Android Cell and shown various Visual material in the E-Class room period.
- The college offers fees concession, various scholarships, awards recognition for the students to attract them and initiate them on the highway of higher education to reach their ultimate destination.
- Lectures are arranged as per the convenient time for the students so that they can participate in teaching-learning process.

- The Central Library provides books that prove helpful for students.
- Teachers are careful about each student's future.
- Evaluation is made as per their performance in practical, theory and oral examination.
- The College provides healthy and rich ambience for students to grow.
- The College arranges and organizes cultural events, sports events for the students.
- The College also encourages students to attend, participate in such events.
- NSS camp is organized to inculcate moral values, brotherhood, dedication, social justice, national integrity and scientific approach to lead a successful content life among students.
- The College conducts special programs that help students to develop their critical faculty, thinking ability, and philosophical lode through guest lectures, career orientation camps, field visits, projects, essay writing, poetry reciting competition, elocution competition and other activities.
- In brief, the College takes care to see the betterment of students through its various decisions, actions, resolutions etc.
- Besides the Lecture Method, Teachers of the college supplement their daily teaching by utilizing other learner-centered Teaching Methods.
- Those Methods include Interactive Method, Project-based Learning, Computer-assisted Learning, Experiential Learning, Participative Learning, Problem Solving Methodologies, Seminars and others [e.g. Educational Tours, Preparations of Charts etc.]
- On the whole the Teaching Staff of our college utilizes Blended Learning Method [B. A. / B. Sc. / B. Com.], Interactive Method intermittently in their teaching and Cell-assisted / Computer-assisted Learning method for Humanities, Science and Commerce Faculty students].

Thus, the learning in the entire campus of the college is made student-centric.

### **Experiential Learning, Participative Learning Practices:**

- The English Department promotes imagination and creativity skills among the students and conducts Caption Contests, Quest, Spoken English and course in communicative skills.
- All departments conduct competitions, workshops for the students to showcase their talent by interactive presentations, games, personality assessments and projects regarding cross cutting issues.
- Poster making, Project competitions, Video making intercollegiate competitions are conducted.
- The Commerce Department gives experience to students. Third year students of commerce faculty get an exposure by visiting nearby Banks and Small Scale Industries.
- Entrepreneurship Development Cell of Commerce faculty organizes workshops and exhibitions to develop the student entrepreneurs.
- Activities like Brand rangoli, Industry visits give the practical experience of product development, pricing, marketing, branding of the product.
- Science Exhibition and Education Tours provide an opportunity to science students to operate instruments and new technology from various laboratories and show the talent by doing experiments beyond the curriculum.
- The Computer Science Department conducts Interaction: an intercollegiate competition for undergraduate students.
- To gain the field work experience students are sent to visit different Institutions, NGOs, Research Centers, Industries etc.
- Expert's Lectures, Workshops, Field visits and study tours are organized for the students. Students are involved in organizing and coordinating various activities which develops leadership skills, team spirit, skills of critical thinking among the students.
- Different games are introduced to motivate the students to participate in the learning process.
- Competitions like Quiz, Power Point Presentations, models and poster making give exposure to students to show their creativity and their knowledge.

- Different departments give survey based assignments to the students.
- Research based projects are assigned to the students.
- Students are encouraged to participate in State, National, International Conferences / Seminars / Workshops etc.
